

Computer Programmer / Museum Professional

Cassandra Curtis

Objective

Hard-working and reliable IT Programming student with 10+ years of work experience and 5+ years as a museum professional, looking to build a career as a developer in the IT industry. Eager to apply my passion for community, culture, and creativity to new projects to help engage users and enhance digital experiences.

Select Work Experience

May 2021 - Current

Virtual Content Technician *Dartmouth Heritage Museum*

Responsible for developing virtual content for the museum website, researching and implementing digitization strategies for a collection of analogue media, and aiding to catalogue and digitize the collection. Also responsible for giving guided tours & other general museum duties.

June 2020 – August 2020

Tour Guide/Archivist *Friends of McNabs Island Society*

Provided 6-hour long walking tours of McNabs Island with a focus on military, social, and natural history; catalogued and oversaw the transfer of a research fonds to the HRM Archives.

September 2018 – December 2019

Heritage Interpreter *Canadian Museum of Immigration at Pier 21*

Provided guided tours to 50+ person groups and educational programs in both English and French for all grade levels; sold tickets to 1000+ visitors per day, balanced the cash, and oversaw the closing of the exhibits
